

2020-21 Student Activity Fee Student Organization Funding Report

The amount of the Student Activity Fee for 2020-21 was \$330 and was used to support the operation, maintenance, and debt service expenditures for Student Engagement and Campus Life and for support of various student organization programming activities as determined by the Student Budget Board. For 2020-21, \$2,131,257 was available to be allocated to support student organizations, which included a base allocation of \$1,165,595 for fiscal year 2020-21, and \$965,662 of unspent and/or unallocated funds carried forward from the prior fiscal year.

Student organizations applying for student activity fee funding must submit budget requests to be reviewed by the Student Budget Board (SBB). Only organizations that have registered with Student Engagement and Campus Life, are eligible to submit a budget request. All organizations may be asked to appear before the board to present their request and to answer questions of the board members. The board is governed by funding policies approved by the Commission on Student Affairs (CSA).

The Student Budget Board, a standing committee under the CSA, is responsible for reviewing budget requests and making funding decisions for University Chartered Student Organizations (UCSO), University Student Life Programs (USLP), and Registered Student Organizations (RSO). Its membership is composed of Virginia Tech students. The Student Budget Board is advised by the Assistant Director of Student Organization Finance and Development and the Associate Director of Student Engagement and Campus Life, who are full time, administrative staff members.

The following groups received funding through the budget board process. For more information about an organization, please go to the Virginia Tech homepage www.vt.edu and select "Clubs, Organizations, and Involvement" under the Campus Life menu section.

Active Minds	Active Minds is a student-led mental health group that works to raise awareness about mental health, raise funds for critical mental health education and resources, promote positive mental health and wellness, educate students and educators about the signs and symptoms of mental health disorders, and encourage students who are struggling to reach out and seek help.	\$2,000.00
Aner Soc of Mechanical Engineers	ASME, the American Society of Mechanical Engineers, founded in 1880 is a not-for-profit professional organization promoting the art, science, and practice of mechanical and multidisciplinary engineering and allied sciences through the world. The ASME Student Section at Virginia Tech is dedicated to building the leadership, teamwork, and social skills of its members required to be a successful professional in today's work force.	\$666.00
American Veterinary Society of Animal Behavior	This club enables additional educational opportunities for students to learn about animal behavior through guest speakers, externship opportunities, group trips, and hands on training. Knowledge on animal behavior is a useful skill to have as a veterinarian regardless if you are a small, large, mixed, wildlife, or exotic veterinarian for both diagnosis, prevention, and treatment. Another aspect of animal behavior that is important is that as a veterinarian we will be approached by clients who are having behavioral issues at home and are looking for ways to minimize or eliminate these problems. In addition to these opportunities this club would have the information from professionals that would help the first year students be able to train the MDL dogs during their socialization times more efficiently using appropriate training methods.	\$613.00
Archimedes Society	The Archimedes Society fields three freshman-only design teams. Why? Archimedes was founded seven years ago on the principle that STEM freshmen are passionate, goal-driven problem solvers that are more than capable of conquering a design challenge. While there are other numerous design teams around campus, we strive to give freshmen a more in-depth experience than they might find in an upperclassman-dominated organization.	\$967.00

Ask Big Questions	<p>Ask Big Questions Fellowship/Internship is an opportunity for students to challenge each other to think outside of the box in conversation. It is a chance to master some powerful skills, form deep connections, build community on campus and learn about yourself.</p> <p>Ask Big Questions Conversations create a safe space for people to share ideas on topics that they wouldn't have the opportunity to discuss otherwise. We discuss questions such as "What informs your identity?" "For whom are we responsible?" and "Are we free?". The creation of safe spaces on our campus is necessary in order to be able to hear opinions that differ from the majority. A place in which someone who is often the minority can openly share their views and experiences allows for people who are generally part of the majority to widen their world view and understanding. Safe spaces exist for many minority groups, however ABQ conversations differ because they are not only a safe space for minorities they are a safe space for people of all backgrounds to come together and have these meaningful conversations so that everyone involved may leave with a new perspective. At a campus that can sometimes seem rather lacking in diversity, Ask Big Questions strives to create a sense of diversity through our facilitated conversations.</p> <p>In the past Ask Big Questions has organized a multitude of conversations across campus on various topics for various groups. We hosted conversations for most of the cultural months, for organizations on campus such as LGBTQA, SERVE, and VT Engage. If you would like ABQ to lead a conversation for your organization or at an event you are holding contact us!</p>	\$9,768.00

Bujinkan Budo Taijutsu	<p>The Bujinkan Budo Taijutsu Club focuses on modern and traditional self defense and combatives. Bujinkan Budo Taijutsu is a martial art stemming from nine traditional Japanese ryu, or martial schools. Six of these schools were originally samurai ryu, while three originated as ninjutsu. These combative arts date back to as far as the 1200's. The art incorporates unarmed strikes and grappling as well as a large variety of weapons. Variations on traditional techniques and concepts are also adapted for use with modern tools and situations. This ability to adapt has allowed the art to thrive while maintaining a continual link with its roots. Focus is placed on control of space, timing, and structure, rather than the use of muscle.</p>	\$2,467.00
