

THE BOTTOM LINE SEPTEMBER 2020

UNIVERSITY NEWS

Flu shot clinics now available

This year, all employees must schedule an appointment for their flu shot. Clinics will be held from 8am-3pm at North End Center and Steger Hall. The vaccine consent form should be completed in advance and plan to arrive no more than 5 minutes before your appointment.

[See VT News](#) for more info on how to register and clinic dates and locations.

Diversity: Inclusion in the Modern Workplace module now available

Earlier this month, all Virginia Tech employees and graduate students received an automated email with a link to a new module offered from Everfi.

Employees are encouraged to review and complete this ~45 minute module. If you have trouble accessing it, or never received the initial email, please contact inclusivemt@vt.edu or your unit's Diversity Committee representative.

Discussion group series continues

The VP for Finance Inclusion and Diversity Committee continues its discussion group series **Oct. 20 at 2pm** with NPR's "More Divided than Ever?"

The podcast explores a hidden connection between our biology and political views. And historians trace how the nastiness in our politics isn't a new phenomenon, but something that dates back to the country's founding.
